APPENDIX I.

[Vide answer to starred question No. 1 asked by Vidwan T. Muthukannappan at the meeting of the Legislative Council held on 6th February 1959, page 5 supra.]

(*a*) There is no Government College in which "Islamic literature" as such is taught. There is provision for teaching of Urdu, Arabic and Persian in the Government Colleges in the City as follows :—

(1) Presidency College, Madras—Urdu.

(2) Government Arts College, Madras—Urdu, Arabic and Persian.

(3) Queen Mary's College, Madras—Urdu.

(*b*) The information is given below :—

	Presidency College, Madras—Urdu.	Government Arts College, Madras.			Queen Mary's College, Madras—Urdu.
		Urdu.	Persian.	Arabic.	
1957–58 ..	16	57	3	4	6
1958–59 ..	16	62	3	9	8

(*c*)—

(1) Presidency College, Madras—One Assistant Professor.

(2) Government Arts College, Madras—

Urdu .. One Lecturer (post now vacant).
One Assistant Lecturer (Grade I) and two Assistant Lecturers (Grade II).

Arabic and Persian. One Lecturer, one Assistant Lecturer (Grade I) and one Assistant Lecturer (Grade II).

(3) Queen Mary's College, Madras—

Urdu—One Assistant Lecturer.

Appendix II.

[Vide answer to starred question No. 2 asked by Sri T. Purushotham at the meeting of the Legislative Council held on 6th February 1959, page 6 supra.]

The names of the villages with the number of families whose habitations will be submerged by the construction of the Vaigai Dam, when it gets filled up, are given below :—

		Number of families.
Mettur including Othaveedu	Hamlets of Melmangalam.	50
Illantope		8
Pasukarampatti		80
Kamakkapatti including Sakkiliyakudi, hamlet of Tamaraikulam		190
Vadaveeranaikenpatti		130
Pinnathevanpatti	Hamlets of Vadaveeranaickenpatti.	78
Chavadpatti		166
Kuriyapanpatti		125
Karattupatti, hamlet of Koilpatti.		37
Karattupatti	Hamlets of Shanmugasundarapuram.	94
Sokkathevanpatti		7
	Total ..	965

2. Most of the families belong to the Piramalai Kallar community. In addition to the homesteads, the families will have to abandon their cultivable lands also. The total extent of land in the holding belonging to the affected families, which will get submerged, is about 3,500 acres. The correct extent will be known only after the acquisition in progress is completed. The total population of the affected villages is 4,069.

3. For affording relief to the displaced persons, action is being taken by the Collector on the lines indicated in G.O. No. 1718, Revenue, dated 10th May 1958. Five blocks have been selected for rehabilitating the displaced persons of the abovesaid villages. A topographical description of the above five blocks and their potentiality for rehabilitation are given below :—

Block No. I—Gullapuram.—An extent of 20·68 acres comprising S. Nos. 82, 83, etc., of Gullapuram village, classed in the revenue accounts as assessed waste dry and forming a compact block is found suitable for locating a colony of 150 houses with all necessary common amenities for the people. This is good place for habitation, and is very near the dam site and Periakulam Andipatti bus route. Good potable water can be tapped in this locality. Within a radius of 1½ miles of this block, an extent of 498·64 acres of Government waste lands, inclusive of 82 acres already under occupation, can be assigned to the settlers in this block, and also block No. 2, discussed below. These lands can be brought under cultivation without costly reclamation. Even though the availability of this block both as house site and as arable land was notified to the displaced persons, nobody has so far applied for assignment. Evidently they are not willing to occupy this block.

6th February 1959]

Block No. II—Melnangalam.—An extent of 35·10 acres of Government waste land comprising S. Nos. 1858-1, etc., is suitable for construction of house. This also is very near the dam site. There is a urani with good spring situated in this block that can be deepened a little and utilised as a drinking water source. Within a radius of one mile from this block, an extent of 385·36 acres of arable Government waste land is available for assignments to the prospective inhabitants of this block. About 150 families can be settled in this block. This block is about 4 furlongs from block No. 1. Each family can be assigned 2 acres of land comprised in this block as well as in block No. 1. These lands are fit mainly for dry cultivation and an extent of 51·72 acres can be converted into garden lands, in course of time, by reclamation and provision of wells. No irrigable lands are available in this area. There is every prospect of this area developing into an industrial centre, when electricity is generated in the dam and, as such, the inhabitants of this locality are likely to get subsidiary employment in the industries that are likely to crop up here. So far, 122 applications for house-sites in this block have been received from the displaced persons and nobody is willing to get the site assigned, on some pretext or other. However, the applicants are being persuaded to settle in this block. The petitions will be disposed of after observing the usual formalities. Fourteen persons of Pasukarampatti have so far applied for lands for cultivation in this block and action is being taken to expedite assignment. Some more applications are also expected.

Block III—Kovilpatti near Vandalakaradu.—An extent of 21·09 acres comprising S. Nos. 1243, 1244 and 1245 was selected for assignment of house sites. Forty-five families have already been settled in this new colony, and some more families are eager to come to this site soon. Action is being taken to issue assignment orders to the occupiers. The drinking water well work is also in progress in this site. Nobody has so far applied for assignment for cultivable lands. However, all preliminary steps are being taken to subdivide the available waste lands into convenient blocks of two acres for assignment and all other formalities required by the rules are also being observed.

Block IV—Theni Valakaradu forest or Pullakaradu forests.—The Board of Revenue has recommended to the Government to disreserve seven acres in Valakaradu Reserve Forest, to settle 150 families after assigning 3 cents per family for house-site. The proposal is under consideration of the Government. When the proposal is approved by the Government, a lay out plan will be prepared for the site and the plots will be assigned to the villagers of Chavadipatti and a portion of Kamakkapatti, after observing the usual formalities. The displaced persons who want to settle in this block have been told that no arable lands at the disposal of the Government are available for assignment near the site.

[6th February 1959

People of Kamakkapatti who want to settle beyond the submersion area near Kamakkipatti.—The villagers do not want to go to any other site selected for rehabilitating the displaced persons. They have themselves selected a site in the limits of Melmangalam and Tamaraikulam villages for their habitation. This site, consisting of several survey numbers (1591-1, etc.), has an aggregate extent of 20·64 acres in a compact block. This is suitable for habitation and this site is at the disposal of the Government. About 200 families can be settled in this site comfortably after making provision for common amenities. Steps are being taken to plot out this area and for assigning it to the applicants at the rate of five cents per family, after observing the usual formalities required by the rules.

As regards provision of lands for cultivation to these people, assessed waste dry lands in the limits of Melmangalam and Tamaraikulam are available. Fifty-three applications have so far been received from these people and some more are expected. The special staff are scrutinising the applications so far received, and final orders will be passed, soon after observing the usual formalities.

Block V—Koilpatti—House site.—The site selected for house sites for this block comprises S. Nos. 911, 912, 913-1 to 5 of Koilpatti village, at the disposal of the Government. Provision has been made for 134 houses of five cents each. A drinking water well is also being sunk. So far, 94 persons have applied for assignment and they have been allotted the plots. Formal orders of assignment will be issued after altering the classification of the lands suitably. The villagers say that they will enter upon the new colony, only after getting compensation for their old houses. Steps are being taken for speedy disbursement of the compensation amounts.

There are some lands on the north and north-east of this block and these can be assigned for cultivation purposes. The villagers have also agreed to take these lands. These lands are at present under the control of the Public Works Department (Vaigai Reservoir Project) and they say that these lands can be released for cultivation purposes, only after the Project work is over. So the question of assignment of arable lands has been put off for the present.

Kunnur.—Besides the thirteen villages mentioned, it has since been proposed to acquire a portion of Kunnur habitation with houses thereon for the submersion area of the Project. About 90 persons are likely to be affected by this new proposal. The affected persons are not willing to settle in any of the sites, already selected for colonization. They say that they will select their own site, and intimate to the Government. The question of rehabilitation of these persons will be taken up on a further move from the people.

Thus, all possible steps are being taken for quick payment of compensation and the early rehabilitation of the affected persons.

6th February 1959]

APPENDIX III.

[Vide answer to starred question No. 3 asked by Sri A. Gajapathy Nayagar at the meeting of the Legislative Council held on 6th February 1959, page 7 supra.]

List of persons from whom tenders are invited for the purchase of raw drugs that are used in the Hospital of Integrated Medicine, Madras.

1 Messrs. Sha Multan Mull Rangaraj & Co., No. 76, Mannady Street, Madras-1.
